

The JPIC Commission invites you to
A FORUM ON
LAUDATO SI
ECONOMICS OR RELIGION OR WHAT?"

Presenter:

LOUIS DETHOMASIS, FSC, PH.D.

Chairman, Christian Brothers Investment Service-Global
President Emeritus, Saint Mary's University of Minnesota, USA

Brother Louis will present Pope Francis', *Laudato Si*, with a focus and insights that are not commonly discussed among concerned people and groups who are committed to the principles elaborated in this timely and important Encyclical. The framework in his elaboration will address the economic underpinnings on this topic that are significantly different than what are the usual economic assumptions and the accepted so-called "economic fundamentals". He will also set the context of these economic factors as they interact with politics, business, culture and religion. Br. Louis tells us, "It is my hope that this presentation may challenge us to discern the complex dynamics involved in *Laudato Si* so that we will be able to respond to these urgent global needs more assertively and effectively."
